the stock was forced up to 80. It sold yesterday at 41 3-4.

FAILED IN BIG POOL.

Keene failed utterly to force the hand of E. H. Harriman and the Southern Pacific directorate. Mr. Harriman gave out a statement that Talbot J. Taylor & Co. had threatened to make trouble for the Union Pacific Interests in Southern Pacific unless Mr. Keene's holding, were taken on their hands at 78 and the pool's holdings at 70. The retort to this was the suit instituted by the brokerage firm to enjoin the Union Paccific from voting its Southern Pacific stock. The firm lost in the preliminary litigation, but the final suit is still pending.

Of the 400,000 shares of stock held by the pool 200,000 were Mr. Keene' personal holding. He bought it at between 67 and 80, making an average gost for the block of \$73 50 a share, or \$14,700,000. The lowest mark couched by the stock in yesterday's market was 39 1-2, which would make his paper loss \$6,800,000. His actual loss by the transaction before he closes out his deal is figured in the street as likely to be \$5,000,000. As the situation now stands, E. H. Harriman and his associates will be able to get the holdings of the former pool at practically their own price. It is even claimed that Mr. Keene parted with an immense block of his stock at private sale yesterday to Kahn, Loeb & Co.

UNLOADING OF STOCKS.

Mr. Keene's losses in other securities will not be inconsiderable, it is said. The market movement yesterday indicated heavy liquidation in securities in which Mr. Keene and Talbot J. Taylor & Co. have been trading. The firm had been dealing extensively in Chicago, Milwaukce & St. Paul which has declined steadily from 200 to 137 1-4, the low point touched yes terday. Of other specialties of the firm in which they were generally credited with being long were Reading, of which 107,000 shares were dumped in the market; St. Paul, 73 900 shares; Amalgamated Copper, 98,400 shares; B. R. T., 34,100 shares, and Southern Pacific, 86,135 shares.

"How about the report that you very recently settled \$5,000,000 on your wife, \$5,000,000 on your son and \$5,000,000 on your daughter?" Mr.

"I won't say anything about the amounts," replied Mr. Keene. "I guess I'll lose about \$1,500,000 through this failure," he continued.

"I had no connection with the firm, except that I did business there. I had my office there, it is true, but was not connected in any way further than that Talbot is my son-in-law and did business for me.

MARKET MOST DISCOURAGING.

"I would have seen him through this thing, but the market was so gloomy and discouraging, with not a bright outlook anywhere, that I began to think about myself and decided it would be best not to put up any more money for the firm.

"I thought I was in for quite enough in view of the state of the market." "What are the liabilities of your son-in-law's firm?" was asked.

"I don't know," Mr. Keene answered; I haven't learned any of the details yet. All I know is that I am the largest creditor. Outside of myself the principal creditors are banks, and they will lose nothing, because there was no !oan with any bank without a 20 per cent. margin of

"Some of the banks wanted fresh margins, but I won't say anything about that-I won't put up any more money. The loss is not great outside of my own. The crisis came when the firm couldn't get rid of its heavy

THINKS THEM IMPROVIDENT.

"I am annoyed at this thing because I think they have been improvident and have allowed themseives to be stuck by several people." "Who stuck them?"

"I don't care to say, except that they were stuck by certain parties." "Will you help them to resume business?"

This question was not answered directly, but the indirect answer was very positive. Mr. Keene said:

"I never saw such a hopeless market as we have. When you can get such stocks as United States Steel preferred for 68, is there any wonder that I refuse to help my son-in-law out any longer?

"They had a large amount of investment securities which they couldn't get rid of, and that was the direct cause of the failure. It shows what a market there is when you hold investment securities and cannot even sell

"What class of securities were they overloaded in?"

"I don't care to say further than that they have acted imprudently and got themselves in a hole they ought not to have got in.

"I am not embarrassed; I am only annoyed."

STREET EXPECTS STOW & CO. TO REGAIN THEIR FOOTING.

Dunning, Who Had to Answer Many Calls to Aid the In-

OUT. SAVED MAN FROM SUICIDE.

Was Taking a Girl to a Hospital When She Ran Into an Aceident and Bandaged Wounds of Women Trampled by a Horse.

It was Dr. Emily Dunning's busy day. Dunning was a tired woman. She had done her share. So had the ambulance

There were a couple of transfer cases when she took hold to-day, and these kept her busy until the gong sounded at 8 o'clock. It was for Samuel Frieber, a and was away with him to the hospital. It took the policemen two minutes to reach Fegolia and Pisano, who were at the bottom of the heap.

There was a breathing spell and Dr. Dunning was soon again a surgton on the bottom of the heap.

Ran into an Accident.

On being dragged out on the sidewalk both men were covered with blood flowing from numerous cuts. The policemen took the leathern throngs from their billies and used them on the wrists of the men to stop the flow of blood. With the aid of some of the passeners.

Ran Into an Accident.

Eva Traegel, a girl in her teens, living at No. 46 Delancey street, claimed the doctor's attention, having been astended that the hospital was the piace for the child and was on her way there through blood.

With the aid of some of the passeners.

the men to stop the flow of blood.
With the aid of some of the passengers of the stalled train the Italians were carried to the East One Hundred and Fourth street police station and a call sent in for an ambulance.
Dr. Krauspokis, of the Harlem Hospital, responded, and dressed the wounds of Fegolia and Pisano, who refused to go to the hospital and were sent home.
The south bound train was made up of five cars, which were filled with laboring men, bound for work. When the iron shoe on the first car broke, which conveys the current from the third rail, it short-circuited the car. The blowing out of the fuse, accompanied by a blinding flash and a deafening report, the concussion of which broke every window in the car, stampeded the men in the train.

Mad Rush for Safety.

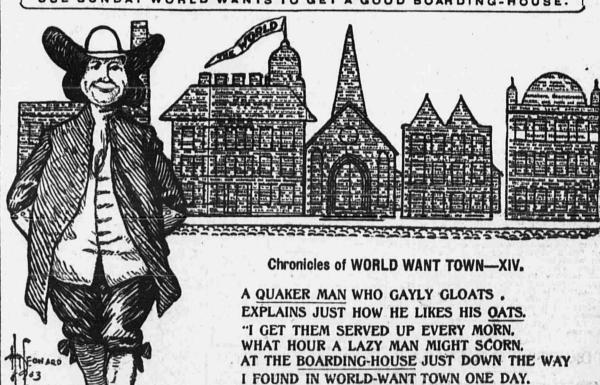

PAPA-Oh, what a pain! I believe I have a fever in the heart. MAMMA-Nonsense, it isn't your heart, it's your stomach. Every time you eat this hot weather, you get a sour stomach full of hot gases and acids, and you swell up until your heart hardly has room to beat. If you were not so obstinate, you'd take my advice and keep your insides cool by taking a CASCARET Candy Cathartic every night before going to bed. They work while you sleeps and keep you regular in the hottest weather.

THE MEAL OF OATMEAL-DO NOT SCOFF!
